Freightfolio.

DONE-FOR-YOU FREIGHT DOCUMENT PROCESSING

Turn freight paperwork into clear, carrier-ready load packets.

Freightfolio organizes rate confirmations, bills of lading, proofs of delivery, carrier invoices, and exception documents - then shows your team what is ready and what is holding up billing.

01 / SEND

Upload or forward

Send documents through a secure link or your Freightfolio intake address. No new software to install.

→

02 / CHECK

We extract and match

Key fields are pulled from each file, matched to the right load, and checked for gaps, duplicates, and conflicts.

→

03 / ACT

You get the action list

See which carrier payables are verified, which loads are blocked, and the exact next step for each exception.

What your team gets

A practical operating view of the paperwork behind every load - not another inbox to search.

- ✓ One organized document packet for each load
- ✓ Weekly billing-readiness Excel report
- ✓ Dashboard visibility on Business and Premium plans
- ✓ Missing-document and mismatch flags with source traceability
- ✓ Daily exception list so follow-up starts with the answer
- ✓ Clear carrier-payable status with blockers and next actions

See it on your own paperwork first.

Up to 10 documents. Sample report in 3-5 business days. The pilot fee is credited toward your first month if you subscribe.

Simple, transparent volume pricing

Overage: $0.40 per document above your plan allowance. Freightfolio applies the cheapest eligible total instead of forcing a sudden tier jump.

Document count: one file is one document, whether it is a one-page POD or a multi-page rate confirmation. Most loads use about 3-4 documents.

Need hands-on support?

Managed billing can add manual exception resolution, document chasing, customer-specific procedures, enhanced quality assurance, and custom reporting.

From $750/month

Quoted to your volume and workflow.
